STRATEGIC OVERSIGHT

Provides strategic guidance on enterprise-wide digital transformation and innovation across global organizations.

Current Roles & Governance:

- **Executive Innovation Board Member**, shapes group-wide innovation priorities and steers development of new business models to ensure sustainable growth.
- **Chief Data & AI Officer**, accountable for enterprise AI strategy, governance, and risk management to enable responsible value creation with measurable EBITDA impact.

Previous Leadership Experience:

- **Head of Digital R&D (2019–2024)**, set the vision and provided oversight for digital science transformation, accelerating product discovery and reducing innovation costs.
- **Enterprise Restructuring (2016–2018)**, established a governance model to strengthen regional agility and local P&L accountability.
- **M&A and Post-Merger Integration (2013–2016)**, provided strategic counsel during negotiations and oversaw digital integration execution.
